## WHAT TO BRING ON 3-DAY PHOTOGRAPHY WORKSHOPS:

-  Warm, waterproof clothing for the outdoor sessions
-  Sturdy footwear
-  Umbrella
-  Some people like to bring garden kneeling mats for getting down low and protecting knees!
-  Camera + manual (it's worth checking your manual – sometimes the printed one you receive

only contains basic facts and there's a fully detailed manual on the CD that came with the camera)

 Lenses – bring any lenses that you have also bring any lens hoods that you have with you

 Memory cards (I will use card readers to transfer your images to my computer, but in the event that I am not able to do this successfully, please bring your camera to computer data cable too)

 Batteries + charger + spare batteries – MOST IMPORTANT  Tripod (I will have 2 tripods available for loan). If you have a monopod rather

than a tripod, this could also be very useful.

 Camera bag (useful for protecting camera and equipment when outdoors, a transparent plastic bag and sticky tape make a temporary waterproof cover)

 Cable / remote release (if you have one)

 Polarizing, Neutral density, Neutral density graduated filters are all optional

Extras if you have them.  Thermos flask / Drinks bottle  Rucksack for walks (optional). Notebook, Pens, Pencil
