## WHAT TO BRING ON PHOTOGRAPHY WORKSHOPS & PHOTO WALKS:

- You will need your camera. Ensure it has fresh/fully charged batteries and a spare battery if you have one.
- Please bring your camera manual if you have a print copy or as a PDF on your mobile phone. If you bring DSLR lenses, a hot-shoe mounted flash or other accessories, please bring the instruction manual too.
- Memory card - it is essential that you start the day with an empty, preferably newly formatted, memory card. We will use card readers to transfer your images to our computers, but in the event that we are not able to do this successfully, please bring your camera to computer data cable too.
- A camera bag is useful for protecting your camera and equipment when outdoors, and a transparent plastic bag and some sticky tape make a good, temporary waterproof cover for your camera and an umbrella will protect your equipment and you in wet weather.
- Bring a tripod if you have one (essential for Close-up & Macro workshops and Water & Movement workshops - if you don't have one, please get in touch as we have loan tripods, free of charge).
- For Water & Movement workshops if you have any ND filters, Graduated filters, or polarising filter please bring them with you. The tutor will have a range of filters that can be borrowed, please check with the tutor about compatibility with camera and lenses before the workshop.
- Although not essential if you have a remote shutter release, please bring it with you. Some cameras can be operated by an app on a mobile device which can be useful to prevent camera shake, if you want to try this, please install the app and pair with your camera before the day of the workshop.
- Dress in warm, comfortable clothing that is appropriate for the season and for being outdoors. A waterproof/windproof top will be useful. Comfortable but strong footwear with a none-slip sole is advised for photographing outdoors.
