WHAT TO BRING ON PHOTOGRAPHY WORKSHOPS & PHOTO WALKS:

- You will need your camera. Ensure it has fresh/fully charged batteries and a spare battery if you have one.
- Please bring your camera manual if you have a print copy. If you bring DSLR lenses, a hot-shoe mounted flash or other accessories, please bring the instruction manual too.
- Memory card - it is essential that you start the day with an empty, preferably newly formatted, memory card. It is also recommended to bring a spare memory card should you develop technical difficulties with one.
- A camera bag is useful for protecting your camera and equipment when outdoors, and a transparent plastic bag and some sticky tape make a good, temporary waterproof cover for your camera and an umbrella will protect your equipment and you in wet weather.
- Please feel free to bring a tripod. Landscape photography and long exposure photography in particular require a tripod.
- Dress in warm, comfortable clothing for outdoor sessions. A waterproof/ windproof top will be useful. Comfortable walking shoes/boots are recommended. Do not wear sandals, flip flops or anything else without good grip. We will be making our way up and down significant slopes and steps and adequate footwear is essential.

NOTE:

This course requires a moderate level of fitness. We will be climbing paths with significant elevations and the stairs down to and back up from Durdle Door are significant. Please ensure you are happy and capable of managing the physical aspect of this course so that we can maximise your experience!
